

OPC-32 Outdoor Protective Cover for TP-03 sensor (magnetic)

General information

- ▲ Great outdoor protection against mechanical impact, and sunshine
- ▲ Temperature and UV resistances
- ▲ Several mounting alternatives (magnets, adhesive, ...)
- ▲ Robust, reliable, and lightweight concept.

Basic characteristics

- ▲ Black color
- ▲ Nylon (PA12) material
- ▲ Compact dimensions: 117x80x17,2mm
- ▲ Wide temperature range -20 to +70°C

Physical properties

Material	PA12 - Black
Mounting method (primary)	Magnets
Dimensions (L x W x H)	117x80x17,2mm
Compatible sensors	TP-03
Weight	110g

Packaging

Typically integrated into the sensor packaging / Included in the sensor's cardboard box

Quality statement

All products are 100% tested and calibrated at SYLEX
 All products are manufactured according to ISO 9001:2015 and ISO 14001:2015

OPC-32 Outdoor Protective Cover for TP-03 sensor (magnetic)

Installation remarks

The TP-03 magnetic cover is possible to be installed using magnets, as shown in Figure 1. The neodymium magnets are included and pre-mounted on the cover.

Magnets are installed into each corner of the cover. (Figure 1). Subsequently, you can attach the cover over the sensor to a steel construction. In addition, it is possible to apply a layer of silicone adhesive around the edge of the cover.

Figure 1: Magnets inserted in the each corner of the cover
