

OPC-33 Outdoor Protective Cover for TP-03 sensor (non-magnetic)

General information

- ▲ Great outdoor protection against mechanical impact, and sunshine
- ▲ Temperature and UV resistances
- ▲ Minimalistic design
- ▲ Robust, reliable, and lightweight concept.

Basic characteristics

- ▲ Black color
- ▲ Nylon (PA12) material
- ▲ Compact dimensions: 65x35x14mm
- ▲ Wide temperature range -20 to +70°C

Physical properties

Material	PA12 - Black
Mounting method (primary)	Silicone
Dimensions (L x W x H)	65x35x14mm
Compatible sensors	TP-03
Weight	22g

Packaging

Typically integrated into the sensor packaging / Included in the sensor's cardboard box

Quality statement

All products are 100% tested and calibrated at SYLEX
 All products are manufactured according to ISO 9001:2015 and ISO 14001:2015

OPC-33 Outdoor Protective Cover for TP-03 sensor (non-magnetic)

Installation remarks

The TP-03 non-magnetic cover is possible to be installed using silicone, as shown in Figure 1. Using appropriate silicone install cover to surface.

Groove for silicone is placed around the edges of the non-magnetic cover. (Figure 1). Subsequently, you can attach the cover over the sensor to desired place. In addition, it is possible to apply a layer of silicone adhesive around the edge of the cover.
